Art Unit: 3682

The disclosure is objected to because of the following informalities: The parenthetical notation in lines 28-29 of page 20 should be deleted.

Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19, 20 and 23 each recites the limitation "the second underspring". There is insufficient antecedent basis for this limitation in the claims, as the claims depend from claim 17, yet the second underspring is not set forth until claim 18.

Claims 1-18 21, 22, and 24-67 are allowed.

Claims 19, 20, and 23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
